- We use HTML to create the front-end part of the webpage.
- Here, we have created 3 HTML pages-
home.html, image.html, imageprediction.html, and
0.html.
- home.html displays the homepage.
- image.html is used for uploading the image
- image prediction.html will show case the output
- 0.html is to showcase the result. It tells the action to be
performed on image prediction.html while show casing
the result.

For more information on regarding HTML -
